

13 Heat Shock Proteins in Brain Function

P. Csermely

1	Introduction	272
2	Heat Shock Proteins	272
2.1	Definition and General Functions	272
2.2	Nonconventional Roles: Dustmen of the Cells	275
2.3	Nonconventional Roles: Organization of the Cytoarchitecture	275
2.4	Nonconventional Roles: Buffering of Silent Mutations	276
3	Heat Shock Proteins and Brain Function	277
4	Heat Shock Proteins in Neuroprotection	277
5	Heat Shock Proteins and the Aging Brain	277
5.1	Protein Damage During Aging	277
5.2	Protein Degradation in Aging	278
5.3	Heat Shock Proteins in Aging Brain	278
6	Heat Shock Proteins and Neurodegenerative Diseases	279
6.1	Alzheimer's Disease	279
6.2	Parkinson's Disease	280
6.3	Huntington's Disease	280
7	Heat Shock Protein-Related Therapeutic Approaches	280
7.1	Heat Shock Protein Inhibition: Brain Tumors	280
7.2	Heat Shock Protein Induction: Brain Damage and Neurodegenerative Diseases	281
8	Closing Remarks	282
